

KIM

I didn't make a false move. I had a clear motivation, but I also recognized what could throw me off my game plan. My time was limited. I needed to show results. That was an accepted part of my efforts. I couldn't simply attempt to achieve success. I needed to prove myself.

Admittedly, a lot of my goals seemed artificial. I didn't see much of an opening for change. But I needed to stick with my plan. I wondered who else could recognize things the same way that I did. I felt as if I was in a waiting game. I thought the fatigue could set in. Then I would have an opening.

I believed that I had a clear opening to develop my skills. This was not simply a personal awareness. I believed that I was on to something important. I didn't want to think that this was simply a personal belief. Nevertheless, I needed a stronger basis for conveying this knowledge. Not everyone was equally attuned to this kind of experience. I had a clear foundation for my pursuits. I felt as if I could explain my concerns. Nevertheless, that knowledge was not of interest to everyone.

I could try to phrase my thoughts in a different manner. I was working at creating this different understanding. What tools did I have at my disposal? This was more than a physical understanding. It was rooted in a systematic awareness. This was all part of a personal orientation. Others could align themselves more closely with the needs of the world.

I wanted this insight to amount for more. What did I need to do to add to this picture? Some believed that they had a more exhaustive view of the world. And I wanted to go along with this belief. But I thought of my efforts as grounded in a science. It wasn't about principles of behavior. Instead, I could map out amore provocative approach.

I was more rooted in an ongoing procese. I felt as if I could clue other in about this behavior. I had enough to work from. Mevertheless, that might have not been enough to provide an actual result. I didn't want to get caught up with short-term appeals. I knew the danger if I wanted to complete something.

I battled with these contrary emotions. I could let myself become caught up in moment. Aned there were these wonderful experiences that added to my overall excitement. But I could also lose direction. I would return home with little to show.

"What are you talking about?"

"What?"

"It is unbearably hot. I do not have an in. The world is spinning around me. I need a distraction."

"Is that all that you have to offer?"

"I was trained at an early age to accept what I was given."

"You sound like a circus animal."

"Are we going shopping?"

"What could that possibly mean?"

"What does any of this mean to you?"

"I only want to go along with what is happening around me."

"We all feel pretty much the same way."

"I am an artist."

"Do you paint the body?"

"What is that about?"

"I am working on a biology project."

"Tell me your name."

"Lane."

"Street."

"Where is this headed?"

"Touching and disgust."

"I am not like that. Everything disgusts me."

"We can phrase this differently."

"Yes, we can."

"There is a lot to do."

"All of this work is weighing heavily on me."

"You only need to fill in space."

"Can you do more than that?"

"I can, But I do not wish to."

"Why do you talk like that?"

"I need you to help me to talk differently."

She could have a life apart. They all could have a life apart. That was the wish. There was so much shit around. There were so many things that prevented a lasting awareness. There was so much that prevented individual development."

"Where is any of this going?"

"I do not need your help."

"I am getting out, and I am going right back to the shit."

"My friends help me to think differently."

"What do you think about time?"

"I do not have enough. I am losing it all."

"Does any of this matter to anyone?"

"Could any of this matter? This matters to your friends. You are all working together towards the same goals."

"I need a power system."

"How would that work?"

"Look at my body."

"Are you running down?"

"That is my fear."

"Your reaction time needs to be better."

"DO NOT MAKE A MISTAKE!"

"Everything became too hot."

"I am too hot."

"You can tell me what I need to do. But I have not intention of asking anything from you."

"That is a good way to be."

"What are you afraid of?"

"What are you afraid of?"

"That I will go back to the way that I was."

"There is not enough room here to change."

"What does that mean?"

"You would have to get out. You are being watched. Every move is being tracked."

"And what is going to be discovered by that kind of awareness?"

"A lot of money is spent on not thinking about this."

"I have limited means."

"What do you really need?"

"I need a program."

"WE ARE ALIKE. WE DO NOT HAVE A PLACE ON THIS EARTH THAT WE CAN CALL HOME."

"I felt that for a while. But I am not really that way anymore."

"That feels unfortunate."

"You can hide in the cave."

"What kind of space would that give me?"

"We are back to where we have always been."

"I am not a good lip reader."

"The skill will improve over time. I am telling things, and you need to learn from what I tell you."

"You have advantages on yours side."

"You are looking at different plants."

"There is a different place to hide."

"I am looking for a shade tree."

"This is nighttime. There is no possible way to to escape."

"I have never this motivated."

"I am going to ask you a few questions. I need your answers to be honest. You should relax so that your answer can come more easily. I want you to think about your answers. This could make a big difference for your future. These answers aren't just important in themselves. They lead to a greater awareness why the world is the way that it is. This is your one opportunity to create your own science. What would it involve? What would empower you to have a lasting understanding?"

"You always talk about emotional growth. Why do you think that it is so important as part of individual character?"

"Are you asking the questions now?"

"I assumed that you had an overall purpose. You have been talking about this shit all the time. Personal growth. Human development. I don't know why any of this really matters. I am not sure if it really matters for me. I don't want to say that I have settled in to this life. But I show up. I do what I need to do."

"Are you betraying your goals?"

"I am getting so off track."

"What would help?"

"A map."

"We are going to prepare a map of your personality. We would like to focus on the key motivations. You seem to be experiencing a great deal of stress."

"You like to think that you can read minds."

"People can be simple."

"What do you have in your favor?"

"I want these dramatic moments. Almost like scenes in a movie."

"Everyone has to be on board."

"Some people sleep through their lives."

"Or they are drunk at the best moments."

"What do you really remember?"

"Things from third grade grammar class."

"What is an important memory?"

"Is that one of your questions?"

"Are you going to do research?"

"Your life is a series of patterns. And you repeat these same actions again and again."

"Will I be able to get back to what I am good at?"

"Tell me about the closet."

"What are you talking about?"

"Weren't you locked in a closet?"

"I was hiding. But that was a game."

"I am not looking for a big explanation or a cause."

"That feeling rippled through my whole body."

"I see it all."

"You can go back and forth."

"You are going to spend a lot of money. And you are not going to get results."

"I am looking at simple things."

"I look to the stars."

"How does that work?"

"I see these messages."

"There is a simple message before me."

"They look at me in a simple way."

"You are in on something."

"I thought this for a little while."

"I am attaining a clearer understanding of the connection between sound and light."

"You need to be silent."

"I WAS TREATED AS IF I WAS UNIQUE. AND I WANTED OTHERS TO ACKNOWLEDGE THESE POWERS. I NEED TO ASK YOU IF YOU SEE WHAT THEY WERE TALKING ABOUT."

"This is where it gets fun."

"Do you want to do confession?"

"Do you want to be exposed to more indoctrination?"

"There was so much discipline telling me what to think. I didn't want to think about anything."

"Every princess needs a court."

"Do you think that you are better than others?"

"Is that one of the questions? Why would you ask me?"

"It is a question. You have an air about you."
"All that you do is ask questions of other people."
"This is where it gets really confusing."
"Do you understand all the angles of your personality."
"I only know the one important angle."
"I make my way to my prey."
"Is it that simple?"
"I am watching you."
"Of course, you are."
I close my eyes."
"This is more of a disturbance."
"What are you talking about?"
"These questions can seem like a bother."
"You have been asking the already."
"I CANNOT LOVE THE WORLD!"
"Do you have a savior complex?"
"I have this sinner complex."
"Are you sorry?"
"I am fucked."
"We could go back to the beginning."
"We always do that. I want to venture into dangerous territory."
"This could not be better than it is."
"I AM GOING TO ASK SOMETHING REALLY STUPID."
"This is something so silly."
"I had a glimpse."
"We all do."
"There is a more complex way of describing this."
"I am not into systems."
"You need to relax."
***"I NEED TO BE HONEST. I THINK THAT WE SHARE A SIMILAR OUTLOOK<
 BUT I SPEND MORE TIME TRYING TO PERFECT MY PERFORMANCE."***
"Do you have a trainer?"
"I have a connection to time."
"Things could work out differently."
"That would mess with everything else."
"This is a different season."
"We all end up in the same place."
"That is pessimistic."
"I was thinking about questions of faith."
"WHAT DO YOU BELIEVE IN?"
"The right not to answer that question."
"Will tomorrow be like today?"
"It will be markedly worse"
"You wil have to pay for this."

"You are very nervous."

"Is that how you see me?"

"Do you want me to provide a description?"

"There is a lot of time spent trying to divest of ideas like this."

"Where are you in the other moments?"

"I am working."

What kind of job did Kim do?

"What are you keeping track of?"

"You need to move differently."

"Yau are another corpse."

"The effect is temporary."

"But it is a very long temporary, and it helps me to forget all the other temporaries."

"I know what I reall want."

"That is still not enough to interest another person. They will feign interest. But the boredom will set in."

"I can be different."

"The rest of your days will be different."

"I have nowhere else to be."

"I need to make this connection."

"I do not want to be the last in."

"What do you have for your own benefit?"

"We are going for an excursion in the wildernes."

"Eat this."

"I want to be unique."

"You haven't taken the personality test."

"I am here."

"I am everywhewre."

"We all want omnipresence."

"What is the alternative?"

"Fantasy."

"Frustration."

"Oxygen."

"Someone here knows."

"That is why she is avoiding the questions."

"You need to get strong."

"I need your time."

"That is what I thought that I saw."

"You are already on the map."

"Do you know where that is headed?"

"I take the imperfect with the perfect."

"What is perfect?"

"This is going to be tricky. This is a density question."

"I need your interference."

"What is this really about?"

“What did you say?”
“I want some of that.”
“I want to be perceptive.”
“I want to juggle stars.”
“I have a little problem.”
“I am going to see what I really need.”
“That does not work at all.”
“Do you understand the acceleration level”
“It is less than a life process.”
“Only one person matters.”
“Only you matter.”
“What would you need?”
“I want someone to follow me all the time.”
“I want you to lie to me.”
“There is so much more to the universe.”
“I want a different body.”
“Of course, you do Kim.”
“I want to be able to travel in space.”
“We working together.”
“We are going back to a wonderful moment.”
“You got it all started.”
“I wish that I was you.”
“I wish that I was with you.”
“This is all so automatic.”
“THERE IS SOMEONE ELSE HERE.”
“I KNOW!”
“You know what you make me think of.”
“You are not talking to me. I have no idea who you are talking to.”
“There is another angle.
“We should be further along.”
“I have a simple life.”
“There is space travel.”
“The body can go places.”
“People know.”
“There is no forever.”
“There is wonderful for me.”
“It is notihng like you expected it to be.”
“I am not going to tell you anything.”
“We are all hiding cash.”
“You can help me to feel better.”
“I need you to send me the money that you owe me.”
“We came to a settlement.”
“Someone does not. I need that someone to ask me.”
“Kim does not have a secret bank account.”

"I am getting rid of my holdings.

"I am KIM!"

"You had these friends from your younger years. But they do not understand the new you. They barely recognize you. You walk differently. You relate to the world in a different way."

"You are presumptuous."

"I am not going to tell you."

"Take someone to be yourself."

"I want to be part of this story. That is really the only story that matters to me."

"Show me what you've got."

"Shut the fuck up!"

"Was he bothering you?"

"Are you really going somewhere important?"

"We are going to board."

"I have a proof?"

"I cannot even see from this angle."

"This is cool shit."

"That is all that ever matters."

"The world is truly waiting on you."

"There is no other way to see it. All these points radiate from this moment."

"The light return to this point."

"How does that happen?"

"That looks great from afar."

"I got destroyed."

"I could chase the money."

"You are not moving that quickly."

"I could try to arrive earlier."

"This could matter."

"BUT IT DOESN'T"

"You do not have enough time to realize that this does not matter."

"I could give you what really matters."

"There is a different house."

"You do not grasp that urgency. Honestly, I never thought that you did. I never thought that you could. That does not diminish your basic skill. You are good at doing what you do. But you will never have more motivation. You can look at the stars, and you can dream. And the world will crackle with that energy. You will be in touch. But there is nothing more to think about or talk about. Find a Netflix movie and settle back. I do not want to ruin your high."

"Why are you so cruel?"

"There is not other way to be."

"You are not great at providing a warning."

"That is not part of my show."

"Tell me, Kim, what do you really see?"

"I see that you are asleep."

"I am not expected to have much energy."
"We are ready for you."
"I am going to delay a week on this."
"I need to get this done."
"I can assume things."
"We can all head home."
The wise will explain this."
"Some people take it more seriously."
"Everyone has this out. But there is not out. The words do not allow for that out."
"Explain that."
"You fucking explain. You are claim to be experts. You explain it to me. I don't have long to listen. But I will be patient."
"Leave the window ope,"
"This is worse than I could have imageined."
"I will get started on an explanation.:"
"You need to pay for yourself."
"He understands."
"They all do."
"It will eventually make sense."
"We will do a questionnaire."
"I have been hardly working."
"We all go back to the same place."
"We will give an explanation."
"EAT THIS!"
"Will that kill me?"
"It has nutrients."
"I need to get out of this."
"A different rhythm."
"I am going down in a blaze of glory."
"You need to find a place to hide."
"I only have on place to hide."
"There is not hiding."
"THIS IS SO BAD."
"Give me your hand."
"We are alike."
"Will that give me what I really need?"
"You need to respond a little more quickly."
"Who has what I really need?"
"An electrician."
"That will work."
"I only have limited time."
"I am going to try to finish this."
"I cannot pay."
"This is not how it is supposed to be."

"These are my people."
"Sometimes, I think that you are just as stupid."
"I AM!"
"Make the move."
"What were you doing when you were in there?"
"I am being tested."
"You will be asked for something."
"You will go off the deep end."
"We work together."
"Do not leave me this way."
"We are protected."
"I need the question."
"This does not work for me"
"I am afraid to describe it."
"This needs to be more discontinuous. There needs to be gaps."
"You might as well get paid."
"I do. I rewrite it. And that serves my clients."
"Will you be my client?"
"Here is where the NDA becomes important."
"I am one person who is hiding illegal activities."
"Only one person has the answers."
"Kim, what do you know?"
"For the moment, you believe that is all that matters"
"Can you play a song? Can you do a dance? Can you look wonderful?"
"You will really like this."
"I need to follow along."
"I am holding my breath. I am pretending that this works."
"Skim off the top."
"I need one good day."
"Kim, I have a problem."
"I will not let this be an answer."
"Is this a secret?"
"Everything was in place."
"You have only one focus."
"You do not understand how that is a distraction. All of it is."
"This is horrendous."
"Touch my hand."
"You asked for the impossible."
"That is how I write. I ask for the impossible,"
"You could explain it more systematically."
"But that would not describe anything."
"Where is this really going?"
"I feel very comfortable here."
"Kim, what do you know?"

"I want to become like this."
"We have a disease."
"This is a cure."
"You need to live with this."
"None of that will matter."
"I need more focus."
"Are you happy?"
"I am happier."
"Why did you stop?"
"I do not care? Do you realize what I care about? That does not phase me."
"That is more than wonderful."
"THAT IS ALL THAT MATTERS! AND IT DOES NOT MATTER."
"I will fuck you out of here."
"I need someone to offer me a bridge."
"This is important for you."
"Get this."
"You inspired me."
"For the creatures of the night."
"That is not you."
"We are not like you."
"Kim, I need to blend in the crowd. But I want something more,"
"I can stop this only after I have done this."
"You lost."
"This is the most important thing ever."
"This is life or death."
"Do not play along."
"I am not moving from here."
"I have something to say."
"I need a gift."
"This will work for me."
"You know how to color the moment."
"I want to see."
"I will not interfere."
"This is not going to end well. Kim, I will see you soon. You need to walk away."
"That part of the map is not important."
"Someone knows."
"There is another way of seeing."
"You do not see it like that."
"You insulted me in a terrible way."
"Walk away!"
"I am getting off on the universe."
"You do not want to hear this."
"They are coming for me."
"I fell asleep in the Uber."

"What if everyone knew?"

"I am going down with this."

"They love you."

"Kim, do you love me?"

"That is not in my head."

"Do not ask."

"I am going to ask everyone."

"This will succeed in its own way."

"I like the silhouette."

"That is all that matters."

"You are not going for the really serious stuff."

"I will take that."

"You are not here. When I figure out what I need to ask you, you will be gone. When I figure out what you need to learn, you will be gone."

"How do you know what I need to ask you?"

"Do not be that senseless!"

"Who is this meant for?"

"I am establishing points of geography."

"STRIKE HERE."

"What is that about?"

"I only need a little bit."

"You need to be full on."

"YOU NEED TO ASK. I HAVE YOUR COMPLETE PERSONALITY PROFILE PREPARED."

"You are a nuisance."

"I need you to perform on camera."

"How does that work?"

"Smile."

"Dance around."

"Follow yourself around."

"There are so many."

"I am a martyr."

"Would you die for your beliefs?"

"I am already dying."

"Make a peanut butter sandwich."

"I will get back to you."

"I need to hold to this position."

"What does that mean?"

"I am local."

"I am desperate."

"We are going in different directions."

"Someone will give it up."

"Give it up."

"I am collapsing."

“Kim, this is real shit. Can you go along.”
Kim tried to learn from her experience.
“She needed new experiences.”
“She is going local.”
“What is self-interest?”
“We need a different mix.”
“You have to die.”
“To be reborn.”
“You are messing with my gig.”
“I will give you everything that you need.”
“You are bold.”
“I am not about that.”
“I AM NOT ABOUT THAT!”
“You have to move differently.”
“That did make a difference.”
“MATTER, DIFFERENCE.”
“There is not sicne.”
“I am searching through manuscript.”
“Are you free?”
“Are you loved”
“Can you change the cloud design?”
“WE REALIZE WHAT WE CAN DO.”
“WE CAN DO MORE!”
“I know what I want.”
“I need you to walk a straight line.”
“This is a tracking shot.”
“I need to get it done first thing”
“I am going so late.”
“It is all the same.”
“Do you know why they document this?”
“They are going to get sued.”
“I need to be in a better position.”
“I have no idea what happened.”
“I will contact you when it happens again.”
“It will happen.”
“I need to finish some work.’
“Kim, give me your phone number.”
“What are you really asking me?”
“I am asking yuo to do some work for me.’
“Everything is in place.’
“You are not going to get what you need.”
“That is more than I can take.”
“Do you want me to protect myself?”
“I CAN GIVE YOU LEGAL ADVICE.”

“I am not like that.”

“He messed with the air.”

“THAT IS YOUR DREAM.”

“Is anyone else in the world like that?”
