

ELEMENTS

“Those toiling to protect these digital imprints believed that their efforts were particularly deserving of greater compensation. The digital imprints acquired an independent value that could fluctuate to achieve this representation.”

“Cesium, what are you talking about?”

“The digital imprints such as the passcodes and the routing patterns would provide access to the user. The securitization of these assets enabled a direct connection to the user. They added new features of use. This could include associated publicity such as signage.”

“Value is connected to where we want to assign trust.”

“Trust can be withdrawn.”

SECURITIZATION

The securitization linked social practices to digital controls and legal prescriptions. These processes assisted the creators in developing new law. Any asset could be securitized. Performers could issue bonds to link value to the purchase of these securities. The securitized asset was being marketed numerous times over. For a physical asset, this gave the additional value centrality. Further levels of securitization could be developed.

SECURITY

The securitized asset provided unique access to the user. This required added levels of security to protect the securitized asset. Since they could be accessed digitally, there were greater risks for the investor. There might not have been any physical object, it could be more difficult to protect these objects.

THE CONSTRUCTION OF DIGITAL CURRENCIES

The users of digital securities recognized that these instruments had value in themselves without any connection to an actual object. The digital imprint had acquired an independent value in itself. But the imprint was even more subject to pirating. This meant that the object required further levels of security to sustain this value.

Ostensibly, the digital currency was meant to drain value from the economic system, and the sequestering of value in a digital process was meant to limit the ability of labor to challenge the economic application of value. The continue development of digital currencies was consistent with any assignment of value to financial instruments. The representation was meant to have an intrinsic value. The ability to manipulate this value was fundamental to the definition of any kind of financial instrument.

“The eventual end of such instruments is to concentrate economic power in the hands of those who consolidate these instruments. The users believe that they have been granted the ability to distribute resources in a more equitable manner. However, the ready liberation of value means that these processes can gain primacy over any economic transaction.”

“What happens to labor?”

“Labor can be directed where it is needed to support these instruments.”

“What is the human interest?”

LOTTERY

The lottery provided the means to assign value for participants. This selection was important to expand the opportunity for individuals. They could use the lottery to represent

their desired perspective of these processes. The lottery had material features that were a critical part of its implementation. These material features determined the outcome of such an assignment of value.

BETTING

Betting assigned the distribution in a manner that the user appeared to have greater control over the assignment of value. The bettor can assign value to any process. This can further split value into more localized phenomenon. Those who control distribution of necessary resources can manipulate this assignment.

THE HEDGE

The participant assumed that the distribution of value enabled any pledge could be hedged with a counterbalanced pledge. But this was a system in which the countervailing forces gave some participants natural protection for their securities. They needed to take advantage of their special access to protected investments. This protection could be complex in nature.

LABOR

In this economic model, labor was based on the ability to apply a concentrated effort to advancing these forms of exchange, even if the individual had limited control of these objects. Nevertheless, these workers mystified these processes to disconnect this description from an observation of others form of labor.

This perspective was meant to absorb all other forms of labor. This added to the primacy assigned to this activity.

“You do not realize how intricate these activities are. And the creators may diminish the importance of these contributions.”

“You want to be a creator.”

“Creation requires a massive commitment to the end product. I feel very involved, but I do not have the same ambition. I want to sense the associated rush. But I am constrained from giving myself completely.”

“What about historical processes?”

“I may view history differently.”

“The few for the many.”

“The many for the few.”

“There is a difference.”

“You used to be willing to take more chances.”

“Who is going to understand?”

“Do you have the numbers?”

“I found the exploiter.”

“They bring me great meals.”

“This will food the world.”

“What is the platitude in the food?”

“Take that!”

“Where are you hanging out?”

“I am not going along.”

“You used to have a shitty time.”

“Come share your life.”

“I work; I feel revulsion.”

“How much revulsion?”

“When do you get overcome by the shit?”

“I still feel hope.”

“I do too. For the long range plans.”

“Do not listen to Cesium.”

“I have everything that I need, and I am headed toward victory.”

“Things are just getting started.”

“That is what we said when we bought the house.”

“That is a different story.”

“What do I get?”

“Chips and dip.”

“A kiss on the cheek.”

“I get this body.”

“We go back to drawing.”

“I know that you love this.”

“I do not think about it.”

“Some people get what they wanted.”

“Bleach all the color from the clothes.”

Was he willing to talk about the exhaustion of public resources? Enterprising individuals learned how to exhaust the commons.

“And you learned how to make that stuff yourself.”

“I made it all.”

“I get paid for doing this.”

“The big boom.”

“And that is making sense.”

“Make sense.”

“What was this about?”

“I told the only truth that I could tell.”

“We just go along.”

“That is what he told me to do.”

“I guess you have the ice cream.”

“What are your long term plans?”

“To let my investments breathe.”

“Breathe in.”

“How much do you invested in love activities?”

“I want to forget about work.”

“This is the perfect investment.”

“I am glad that you have sometihng left over.”

“What do you want that you cannot have?”

“Someone will reward me.”

“We can look at the long term creation of money. How it was meant to facilitate social development by drawing from public resources, and how have people tried to manipulate these

resources for short-term gain?"

"You are either part of the solution, or part of the dissolution."

"The maintenance of the common good."

"The maintenance of the social order."

"Where are you going with this?"

"Some very busy people."

"What are you telling me?"

"On any given night, I could wonder about this shit."

"Leave it all behind."

"I cannot stop."

"That is the way that you went."

"Are you kidding?"

"Wrong word."

"Don't even try."

"This is not a defense."

"There is one deep question."

"Let me watch."

"The free flow of ideas."

"This idea is moving quickly."

"Where else could you do this?"

"You could pump me full of this shit."

"Pump me."

"And what is missing?"

"I cannot control everything."

"What is the starting point?"

"Everything is fluid."

"There is that one moment when you say never."

"Give me what you want."

He had specific ideas about politics and economics. And he believed that he was still at the cutting edge. But the edges were cutting back.

"I have some investment capital."

"They mess with the real estate market, and I cannot afford a place to live."

"I don't want to hear about your sadness."

"Waiter, there is a fly in my soup."

"The fly is good."

"I did not order the fly."

"Where is this going?"

"I do not want this job."

"Bad people get rewarded."

"And what do you know?"

"Dinner is served."

"I am not going to listen."

"Mate."

“How are you going to beat the machine?”
 “I am figuring it out.”
 “As long as you can’t, you will not get dinner.”
 “No dinner anyway.”
 “Going with the flow.”
 “The machine has not been beat.”
 “Moira, I need you to design another machine.”
 “Will it win?”
 “I need it to win.”
 “Can you ever win?”
 “I am being cued.”
 “Who is on the cue?”
 “The sugar stick.”
 “Where does that go?”
 “Someone else is coming.”
 “The attack meets with resistance.”
 “You destroy to destroy.”
 “I get it.”
 “You rob from the rich and give to the richer.”
 “And then the bus unloads.”
 “How are you investing in the community?”
 “The individual can take away from public resources in advocating for his own pet project. He may develop new forms of meritocracy.”
 “Some people do deserve it.”
 “What do they get? More sugar.”
 “That might work for me.”
 “Write down the amount that you want.”
 “You are still defending the good soldier.”
 “He is going good places.”
 “So is she.”
 “So you want to join in.”
 “I like dry.”
 “Dry and wet.”
 “Creamy.”
 “What can you ask for?”
 “Tell me what you did today?”
 “Intimate.”
 “But I didn’t do that.”
 “I want peace.”
 “Peace of what. You empower every warlord, and then you talk about failed states. How many states have you destroyed.”
 “That is the game.”
 “You gave me what.”

“You don’t learn anything In one hole and out the other.”
“I want to believe that there is more here.”
“Where do we start?”
“You can win.”
“How do I do that?”
“You are coming with me.”
“You face your resistance.”
“I know you.”
“That is all that I know.”
“I missed that.”
“Look up.”
“How far along are we in the game?”
“And that is good for me.”
“Some people are really good at this.”
“I was not expecting you to learn.”
“I thought that the machine learns.”
“What do you want from me?”
“What is his name?”
“I am not trying to change this.”
“I like that so much better.”
“This is almost impossible.”
“He knows what he wants.”
“I cannot even look at you.”
“What is in the bag?”
“You tell me.”
“I am going to need to get this worked on.”
“That is what that is.”
“It is.”
“What is the margin?”
“The aesthetics is triumphant over the desire.”
“I do not understand the concept.”
“She did not see a thing.”
“It will all come back.”
“Eternal review.”
“Pray with me.”
“That stupid machine that you guild is doing all this kind of stuff to me.”
“And you made it.”
“I found it.”
“BEEP BEEP!”
“I am getting desperate.”
“BEEP BEEP!”
“What follows?”
“Your last version left.”

“I am bringing the noise.”
“OINK! OINK!”
“This is the best place to live.”
“Is it cool, or is it cold?”
“I was trying to get rid of you.”
“I want more.”
“Scribble, scribble.”
“Is this a quiz show?”
“Who say that I am a real lover?”
“What is that about?”
“Moirra, do you have any of these specs.”
“Bounce.”
“The current is heating up.”
“How does that work?”
“What is the speed?”
“I am controlling this.”
“And you pretending.”
“You are almost there.”
“Take it.”
“I see what I like.”
“Of course, you do.”
“So much noise that I can cancel it out.”
“That is the massage that I turned down the other night.”
“I am looking at an angle.”
“Two straight lines.”
“Where have you been?”
“Not this guy.”
“You are bleeding.”
“That is an energy drain.”
“And you are almost losing all of it.”
“Why should I bother?”
“Bother.”
“I needd to get this right.”
“We are all watching.”
“There is a lot more to go.”
“That means something else to you.”
“They all love me.”
“The curls.”
“Are they natural?”
“Have we hit one hundred dollars yet?”
“Do you want a pledge?”
“Is this a new guest on the quiz show?”
“What is your big issue?”

“The times have changed.”
“At least, she decided to shut up.”
“She did not like the quiz questions.”
“The guy is a creep.”
“They all look the part.”
“There is a needle in the haystack.”
“That was weirder than I realized.”
“Why do we want to be here?”
“I will take it again.”
“Then it all curdles.”
“You need to follow me along at every step.”
“This is a body transformation.”
“That really hurts.”
“Who won this?”
“You revealed yourself.”
“Where the war lord are, someone waits for me.”
“Public executions, humiliation, and total personal exposure.”
“See my pain.”
“Cut me open.”
“I have arrived.”
“I need to ask what you are doing?”
“Is anything that you do protected from the world?”
“You have not won me over to your cause. You indicated that you would protect your position at any cost.”
“You made me.”
“And you made me sick.”
“How does that go?”
“Do you want to do some double work?”
“Where does that go?”
“Scrambled eggs.”
“What are you protecting?”
“My escape route.”
“That is how the machine is built.”
“Does it take quarters.”
“I am leaving now.”
“I had this working so well.”
“They will dress you in silk.”
“It will get soggy.”
“Where did this really start?”
“What about your sister?”
“She is not really interested.”
“Do not respond. They are hurting you with kindness.”
“You have what I need.”

“I have a coloring book.”
 “This will blow you away.”
 “If you think that, you are not thinking.”
 “I am done with you.”
 “We all come back to zero.”
 “I want to know that I have it.”
 “Your identification is edible.”
 “What else is waiting?”
 “The determination that this is a weekend.”
 Why do you think that I would like this.:
 “Sometime, I glaze.”
 “Do you really understand what this means?”
 “I am not getting back what I invest.”
 “You get out what you put out.”
 “You have already been observed.”
 “All the investment strategies have been calculated.”
 “What would you rather have?”
 “Where did all the money go?”
 “You get all general, then you get generally specific, then you get entirely specific.”
 “You are not that smart.”
 “She is.”
 “When do you take possession of the house?”
 “This is your forever.”
 “We a number of houses.”
 “And there is not much left.”
 “When did this start?”
 “This is fantastic.”
 “Do you think that you can win?”
 “Can you leave?”
 “I am like this because this is all that I can do. This is all. And you cannot take me any further.”
 “Love me for what it is.”
 “Fantastic.”
 “Now, I grasp it.”
 “It was supposed to end like this.”
 “I am saving.”
 “You will get what you need.”
 “Bang a gong.”
 “I am telling her that I have exactly what you want.”
 “What happens afterwards.”
 “I gain knowledge of self.”
 “Follow me.”
 “This is what I want when I don’t feel that good about myself.”

“I just need to sell one of these units, and I am set for life.”
“This makes no sense.”
“I was trying to send you on your way, but now, you have me down for some kind of investment package.”
“That is how I work.”
“I know what you want.”
“We all do.”
“In the cold of my room, I realize that I am looking for something else.”
“You need to develop your endurance.”
“I pray for more strength.”
“Then I need to go back to work.”
“I could develop more commitment to personal liberation.”
“Community and all that.”
“You are just an updated version of Scrooge.”
“You are going to have to explain yourself.”
“This was a parting shot.”
“They have some kind of retinal scan thing going on.”
“It is different from that.”
“They can smell it.”
“Do I want to feel like that?”
“I drifted off from the group.”
“Find the shepherd.”
“Find the sheep dog.”
“I do not want to think about it.”
“I do not.”
“Can you explain this to me?”
“I get it. I do not deviated from expectations.”
“And you really like this. You will spend the rest of your days listening to water drops.”
“The sink is leaking.”
“Fix it.”
“That is a lot of work.”
“It is what I have time for.”
“That is brilliant.”
“I could teach others.”
“I do teach others.”
“What do they want to know?”
“Where to get a cheap grilled cheese.”
“There are alternatives.”
“Have some more pie.”
“These things are not related
“This is love at first sight.”
“That is creepy.”
“It is a fragrance.”

“I will go along.”
“I have given in.”
“Come back for sure.”
“I am trapped.”
“You had the escape clause.”
“I will not think about this.”
“I need total stillness.”
“The heart works like this.”
“I will say something.”
“That really does it for me.”
“This is your fucking life.”
“I have the investments worked out.”
“I cannot send you on your way.”
“I am going with the odds.”
“The most ridiculous people make things go their way.”
“I am the ridiculous one.”
“Save my place.”
“I am trouble.”
“That is not working well for me.”
“We could do a review.”
“I felt as if life had rejected me. For once in my life, I felt as if someone cared.”
“We take risks, and we get little in return.”
“You have been selected.”
“What can you do?”
“Do it!”
“I have a great job.”
“Fucking over your friends.”
“I am not a police informant.”
“Honestly, what would be the difference?”
“The evil is here.”
“The system does it for you.”
“This is where I am headed.”
“I suck it up.”
“However, I do not.”
“Chew on this.”
“These are things that I can dwell with.”
“Deal with it.”
“I will be back home soon. I will be getting ready for work. And that will be the only thing that makes any difference for me.”
“You only need to do one thing.”
“I like it for what it is.”
“I cannot catch that.”
“Can you catch the rabbit?”

“If I can, I win.”

“There is only one thing we want.”

“The push to the sea.”

“I can think about that.”

“And that works for you.”

“I am getting lost in maze.”

“You are not ready for this.”
