

COSTUME

“I can look at you and figure out what role you can play in movie. How will the audience see you?”

“How do you want to be seen?”

“Where does this start?”

“Where does any of this start?”

“We are back in your bedroom when you were a child.”

“What do you have in the basket?”

“Picnic food.”

“This is part of my development.”

“Where does it start?”

“I am hiding in my closet.”

“Who is in the house?”

“This is not a slasher film.”

“More baptism in blood.”

“How do we live everyday?”

“You were talking about the influence of consumer goods.”

“What is the influence?”

“Who are you working with?”

“A conglomerate.”

“A franchise.”

“Will these forms of economic interaction fuel some kind of change?”

“Who is behind it all?”

“Here today and gone away.”

“I am looking at some one person.”

“One person.”

“I am the chosen one.”

“I am the one with limited choices.”

“What are the alternatives?”

“I should have taken another class in finance.”

“What does that do?”

“There are things that I would like to explain.”

“Winner.”

“Slide head first.”

“I am falling head first.”

“What happens?”

“Origins slip away.”

“What is the history of thought?”

“They are going to rescue me.”

“One happy thought.”

“A lack of happiness.”

“I need to be paid in cash.”

“How much cash?”
“What is the job?”
“Live by the sword, die by the river.”
“What does that really mean?”
“What is going on here?”
“I am trying to escape from my body.”
“Work with what you have.”
“What kind of movie is that?”
“I head back to the house.”
“Who is waiting for you?”
“Show me what you’ve got.”
“I need a guide.”
“You are going to be climbing the mountain.”
“I am not trying to be clever.”
“I do not know what this means.”
“I am doing my best to be practical.”
“I buy and sell cars.”
“I buy and sell liberation.”
“It is inevitable.”
“I have been waiting to surface.”
“Bubbles.”
“That is supposed to mean something important.”
“What is the minimum that you are looking for?”
“I could give money.”
“You really think that you are some arbiter of taste.”
“Are you going to eat that?”
“You eat what you find on the plate.”
“I am taking something important from you.”
“Where do you take that?”
“How long will this continue for?”
“You can just leave.”
“I am in for the long haul.”
“They will find me and bring me food.”
“Where are the sources of need?”
“Closer than you know.”
“Casting off the germs.”
“I am hard at work.”
“Are you on break.”
“I am all broken up.”
“Do not dealy.”
“Do it now.”
“Don’t tell me something that is better left unsaid.”
“You are jumping around everywhere. What do you really want to say?”

“Honestly, you tell me. You are confusing me massively. You jumping all around.
What is your goal?”

“To soak the world for everything that it has.”

“I am being strategic.”

“How does that function?”

“I need to take this with me?”

“What is in the basket?”

“Ask Little Red Ridinghood.”

“How does that actually function?”

“We take something that looks expected, and we twist it around a bit.”

“I thought that I was at a fashion show.”

“And how are the people doing? There is a refugee crisis in the Mediterranean.”

“That could be my life.”

“That is my life.”

“You have to know.”

“What are you doing?”

“When is she coming to get you?”

“She has left me adrift in the world.”

“And what are we going to talk about?”

“Real estate.”

“The price of medicine.”

“This could be real in its own way.”

“We are way beyond that.”

“I only want one solution.”

“Great shirt.”

“Thanks.”

“Where next?”

“I want a better life.”

“We could get a plan.”

“He has one plan.”

“You fit all the price.”

“You need to deal with chaos to understand order.”

“You get us in an ethical argument.”

“You do not see the full picture.”

“This is a preview of something that is not going to happen.”

“What do you want to happen?”

“This is going to be money.”

“I am hearing different stories.”

“I don’t care what you hear. You have effectively lost the moral high ground.”

“Take one of these.”

“The rats are jumping off the ship.”

“I worked on this .”

“Do you know the difference?”

“You have no idea what this is.”

“This is what it is and everything.”

“I hope that you feel great.”

“We are not going to get any further ahead.”

“I think about you before I fall asleep.”

“You have no idea what this means.”

“What other options do you have?”

“It is still early, but it is so late.”

“I still can’t figure out why you haven’t been rescued.”

“It takes one slice.”

“We are going to strip away what you have.”

“Nothing means anything.”

“I find this wonderful place.”

“There is that small window of opportunity.”

“All this effort for what.”

“And we take care of it.”

“Who are you working with?”

“I know you.”

“We all do.”

“This is your opportunity.”

“I do not think that you can keep on with this story.”

“When did you come in?”

“WHAT CAN I ASK YOU?”

“Random ends up being this really planned thing. There is a tendency to resolve to particular states. It takes a cataclysmic event to alter the situation.”

“We will work this.”

“We will spill blood.”

“That is going to be brilliant.”

“It would be so simple.”

“When is it no longer economical?”

“That is not going to work for me.”

“I need to ask the difficult question.”

“What is that in my favor?”

“Have you finally got this right.”

“We see right in two different ways.”

“I expect the week to resolve in a very clear manner.”

“That was never a major contribution.”

“Why does that work?”

“That has no effect on me.”

“What do you really want to say.”

“I get carried along. And I am totally loved.”

“Be funny.”

“Make me what you want to see.”

“Make me what you want to do.”

“I am so close to an explanation.”

“You have no idea.”

“I have a feeling that all this is coming apart.”

“What follows is only going to be so much better.”

“Do not interrupt me.”

“You talk about meals missed. Living in this terrible rental. A tree falls into my house, and the owner does nothing.”

“My body attacks me.”

“The attack.”

“I end before I begin.”

“You do not understand that circumstances, which created that event. Where are we now?”

“Tempest, you tell me.”

“We were lied to.”

“What would constitute the truth.”

“Everything important got interrupted.”

“You can ask.”

“Tomorrow will be exactly like yesterday.”

“Did you make up?”

“We have all made up.”

“I am looking for something that I will never find.”

“You should be at home.”

“Someone should be watching you.”

“You ate the snack food.”

“You can understand what you are given.”

“And those presentations all made sense.”

“I shivered.”

“We all did.”

“When will I find what I am looking for?”

“We are all looking for different things.”

“I want the perfect glass of milk.”

“Hot or cold.”

“You are hotter than you know.”

“What will change this ?”

“Nothing that I can understand.”

“This is not as much of a mystery as it seems.”

“The noises from the radiators.”

“That is an efficient manner of heating.”

“What else is there?”

“You will never figure that out.”

“Figure it out.”

“Go figure.”

“What appears to be.”

“What follows that.”

“And where is that going.”

“We take what we’ve got.”

“We take what we need to take.”

“Then all the blood falls.”

“The baptism.”

“We are back to the lapsed soul.”

“Will you lead me to the Promised Land.”

“To Detroit.”

“Shit.”

“He is here.”

“I am waiting.”

“Work time.”

“Sleep time.”

“He uses the word fuck too much.”

“He uses the word banana too many times.”

“It comes down to some one thing.”

“Why did you leave me here?”

“If we answer that question, then we can figure out all the combinations in the world.”

“The alien question.”

“Do you want to go further?”

“They discovered computers a long time ago.”

“And you remove actual experiences from their historical context. What do you get?”

“I understand nothing.”

“It better get better.”

“DO WE HAVE SYSTEMS OF THOUGHT THAT CAN ORGANIZE ALL THIS INFORMATION?”

“Then you are gone.”

“I get stung.”

“I hang myself out to dry.”

“I can jump into a car.”

“Is this something that I should include?”

“This was good for a while.”

“That is all the while.”

“I can listen.”

“Listen well.”

“I can tell everyone that she is loved.”

“That did not function for me.”

“I am getting this down.”

“Nothing repeated.”

“Dusk knows shit.”

“I follow it allong.”

“We all learn shit.”
“We are all understood.”
“Do you know what this is about?”
“I do not know.”
“Someone could clear it all out.”
“And you trust me.”
“And you trust me.”
“And you trust me.”
“This is fucking brilliant.”
“Heal me.”
“By touch.”
“That is some weird shit.”
“This is really beyond me.”
“What is this: Thanksgiving dinner.”
“I feel insulted.”
“That would have done everything for me.”
“I am here.”
“The numbers.”
“I am angry and manipulated.”
“I fucked up.”
“You don’t want to believe until belief gets in your head.”
“She got in my head.”
“That is not a good look.”
“Where are we headed?”
“To the top of the mountain.”
“To the bottom of the sea.”
“Follow the line of activity.”
“Do you want to start a fight?”
“That would work for me.”
“Do you hate yourself?”
“What is this place?”
“What can you do?”
“Are you kidding?”
“This is lower than low.”
“I like it.”
“We are all crawling.”
“No grudges.”
“Then this shit happens out of the blue.”
“That is funny.”
“And that is really funny.”
“You might as well tell me how to rob a bank.”
“This is madness.”
“He was there.”

“No one hears it that way.”
“What are you selling?”
“Colored pencils.”
“I need to hold it all together.”
“How do you explain it?”
“We have been cleaning up.”
“What does that mean?”
“It could mean something else.”?
“What is that?”
“I see this as an economic transaction.”
“Can I watch?”
“This is a total mess.”
“We go down to the basement.”
“Are you cleaning things.”
“I am going to need some real assistance.”
“There is a moment when you need to admit that you do not care.”
“This is who we really are.”
“I am so comfortable.”:
“Then I do nothing.”
“Relate.”
“You know, but you do not know.”
“I want a winner.”
”Know who I am.
“Know what I was.”
“You are a freak.”
“I got filled in.”“
”This is the moment.”
“And you admit to the crimes.”
“I am going to need a lawyer.”
“Waht did you do wrong?”
“I am easily satisfied.”
“Do I even care?”
“You cannot pretend with this kind of thing.”
“What are my origines.”
“I think that I get it.”
“That is amazing.”
“This is absolutely nothing.”
“Sleeper cell.”
“And you think that you understand completely.”
“Layla, I need you to apply yourself.”
“I need an audience.”
“It get it.”
“Nothing is going to happen.”

“I only need to reach one person.”
“That is really helpless.”
“I turned my therapy sessions into a performance piece.”
“I have seen so much eating.”
“You are afraid.”
“You cannot realate.”
“Nothing works.”
“I spent my month’s salary on a pair of shoes.”
“How did you eat?”
“We do not live on bread alone.”
“I carried over the excess from another month.”
“I want to get this down.”
“You don’t have to do anything.”
“Why do you believe that this is paradise.”
“Because this clown does too.”
“And you hated school.”
“And you taped the therapy sessions.”
“They are not worried about that shit.”
“Wait until you get to social analysis.”
“That kind of shit will eat me up.”
“You are all over the map.”
“I am a funny person.”
“She is showing herself.”
“I want this to be distinctive.”
“Bang.”
“The world explodes in my face.”
“Did you ask for this?”
“None of this goes anywhere.”
“I can’t help it.”
“Teach me true.”
“I am learning something about the society.”
“And that is.”
“Where is the truth?”
“Do I really think that this makes any difference?”
“What are you really afraid of?”
“Policy.”
“Make it up as you want it to be,”
“I remember.”
“I am trying not to get involved.”
“You are a member of a movement.”
“Turn back.”
“I need to wait and reveal.”
“Here, it is.”

“Intevene.”
“I need the angle.”
“Are you supposed to look as if you have your life under control?”
“We are watching you.”
“This is my life.”
“This will go on forever.”
“I only need to do one thing.”
“The coffin is worth money.”
“Did I ruin the night?”
“You either love me, or you hate me.”
“You have seen it.”
“That is never going to work.”
“I guess that you are angry.”
“You are angry.”
“And it all breaks.”
“Nothing will break.”
“Hang on longer.”
“Pretend.”
“At what moment do you say that you have had enough?”
“It is not my doing. This is all that I can do.”
“Do it.”
“I could start a movement.”
“A program.”
“The same jokes.”
“And where are you from, Mr. Writer.”
“This is not my story.”
“We could start here.”
“Who do you want to blame?”
“The mother character.”
“Are you kidding?”
“What do you have?”
“Why do you think that I am important.”
“That is the kind of world that you have made.”
“That is not your goal.”
“This is more bull shit.”
“This guy.”
“Fuck.”
“The door is open.”
“I am waiting for you to leave.”
“What are you: my shadow?”
“I need some one thing.”
“The flowers.”
“What does this mean?”

‘Get to know the world.’
“Reveal what you don’t know.”
“Revel in what you do know.”
“And you close the deal.”
“A chain of hotels.”
“The method for making perfect chips.”
“The method for total forgetting of an uncomfortable event.”
“I am living it now.”
“I need to get out here.”
“It was nothing like you thought.”
“Will you leave me alone?”
“I will make you feel better.”
“Are you a trainer?”
“A teacher.”
“What do you really know?”
“Are you solid?”
“Totally.”
“I know what the totally opposite thing is.”
“Where will you wait?”
‘Where did you stash your shit.’
“Who is following?”
“I know a great place to crash.”
“I cannot pretend that this is a wonderful situation.”
