

AFTER TASTE

“I keep thinking about all the mistake that I have made.”

‘For the next few minutes, neither of us is moving forward. We are both traveling on the same meteor.’”

“I do not see myself as a victim.”

“You can describe all those things for me.”

“Tell me what they are.”

“You better get good at this.”

“I will be better than good.”

“We were supposed to be much further along.”

“Do not try too hard.”

“I give everything that I have.”

“Then there is work.”

“I only want that feeling.”

“What do we know in common?”

“A way of looking at ourselves.”

“At the world.”

“What happened to the political outlook?”

“Too much fun.”

“Explosions all around.”

“We need more focus.”

“They know.”

“I am having flashbacks.”

“That is how history works.”

“What happens when you get back?”

“I am making a fortune.”

“I am trying to hold all the elements together.”

“There is already an echo.”

“History echoes.”

“What does it say?”

“Fucking do something.”

“You have this down so well.”

“I want to learn.”

“I want to build a perfect house.”

“That is part of the story.”

“An important part.”

“You get so good at doing this that you want to leave.”

“There could be an accompanying education.”

“Buy low, sell high.”

“These are people getting screwed in this market.”

“There is a floor and a ceiling.”

“You float up to the ceiling, and you are tossed on the floor.”

“You roll around on the floor until you discover a method.”
“A follow spot.”
“A constant soliloquy.”
“You gain power as a writer.”
“You need to ask.”
“I am rewriting my biology.”
“How is that going.”
“I am dealing with a terrible legacy.”
“Can I join in?”
“How did we get here?”
“We had a common destination.”
“It is not going down.”
“I could track the triads.”
“Some people are looking for something quite precise.”
“Calcium.”
“Magnesium.”
“It is more specific than this.”
“More lacking in any specificity.”
“I have already missed my historical mission.”
“He found his.”
“Not hard.”
“Do you want to roll on the ground together?”
“This is easy.”
“How did he lose?”
“He is investing.”
“What is the best investment?”
“In the failures of others.”
“That will only worsen.”
“I WANT TO GET EMPOWERED.”
“Stick your fingers in an electrical socket.”
“I have lost my focus long ago.”
“Get me fucked up.”
“That will not work.”
“I am surveying this place to build a mall.”
“No one thinks like that anymore.”
“There is already a curse here.”
“She is the wedding planner.”
“Planning won’t help.”
“This is not a wedding.”
“Will I even think about this.”
“I have too much work to do.”
“You will need to work quickly.”
“Do you want to do all of this on your own?”

“Monday is sanctity.”
 “You will need to apply yourself.”
 “What do you want?”
 “He will tell me.”
 “You have already been taking me down this road.”
 “Someone will help.”
 “It is you.”
 “Give me a little smile.”
 “I need to be good.”
 “Where will this go?”
 “And you are helping entrepreneurs.”
 “And we privatize everthing and sell it back to the military. What happens to the people?”
 “They learn on their own.”
 “More temporary shit.”
 “I could do that.”
 “I will do that.”
 “We said no, and now we are here with a whole lot of yes.”
 “He succeeded.”
 “That is all there is.”
 “This is not even a good fit.”
 “It is digging deeper in the hole.”
 “Who controls the mineral rights.”
 “I speculate.”
 “You need to hang on.”
 “I do not worry about it.”
 “This is a ride.”
 “When will anyone figure it out?”
 “Can I build on this property?”
 “I need you to find someone serious.”
 “I need you to go to the other side.”
 “There still time to switch.”
 “You do not like me, do you?”
 “What is that about?”
 “I do not want to get too excited.”
 “I could feel embarrassed about my life.”
 “This is where I am.”
 “I was hearing voices. There were the after-effects of my treatment by the state.”
 “I am hoping for the impossible.”
 “Somoene is draining me of my blood.”
 “It all blew up in my face.”
 “When will I do my home work.”
 “I need the next level of influence.”

“I want devotion.”
“Something that is long-lasting.”
“And it all dissolves. And you are dealing with worse problems.”
“I had this down.”
“I was locked in.”
“And now.”
“All that is past.”
“That is all that it took.”
“You are not going anywhere.”
”We are all in .”
“This is more elemental.”
“The short-term rush.”
“More than a rush.”
“He likes me.”
“She is going to use the law to protect your investments.”
“Is this what you really want?”
“This becomes your life.”
“More than that.”
“You are in my hut now.”
“What is that about?”
“These things are going to work for me.”
“They are still persecuting us.”
“This uneasy compromise.”
“What do you want?”
“Who is going to protect you?”
“Father is happy.”
“This is some religious thing.”
“The deep investment.”
“A burial ritual.”
“These guys have little to contribute.”
“There are two more stages.”
“What are you going to do about that?”
“Where are you hiding?”
“We love this place.”
“Eat, drink, and contemplate the worst.”
“Work tomorrow.”
“That would be everything.”
“Look at me.”
“You need more anarchy.”
“She has it all.”
“Who is waiting for you?”
“You can never know.”
“It all makes sense in my therapy sessions.”

“It works out on occasion.”
 “This is not the occasion.”
 “What do you really want to know?”
 “About these death rituals.”
 “You could make our lives a lot better.”
 “I need your intervention.”
 “There are a lot of options.”
 “I have so much energy. So much forgetting to do.”
 “How else could I spend my money?”
 “There are two other options.”
 “But it came to this.”
 “She is not the edge.”
 “What about when she gets home?”
 “I love excess in my life.”
 “I do not want to make my life part of my life.”
 “I get this completely.”
 “I have reached where I want to go.”
 “I want to add.”
 “I want you to explain.”
 “I suppose that we are past the point that someone else could figure this out.”
 “The only way out is out.”
 “I have discovered someone who will destroy me.”
 “It could be something else.”
 “I was briefly empowered.”
 “Writer, tell me your name.”
 “And this works for you.”
 “This is not the day.”
 “I have found the darkness.”
 “I could play that role.”
 “You make it seem like a career move.”
 “I would not waste so much of my time wasting time.”
 “There are more nefarious motives.”
 “I was almost there.”
 “We are going somewhere else. Do you want to come?”
 “I have all of this down.”
 “This is the next level of resignation.”
 “Then there is the one after that.”
 “You introduce me to this guy, and I do not know what he is about. I can barely tell what you are about.”
 “She knew.”
 “She is gone.”
 “We get what we need.”
 “That is more than everything.”

“You will not find what you are looking for here.”
“It was waiting.”
“Why do you end up here?”
“There is more desperation.”
“I could be walking home.”
“You could be.”
“What does that do for you?”
“This is different than I thought that it would be.”
“I am always celebrating.”
“I will not get out of here.”
“Why should I care?”
“I can do this for you.”
“You need to be prepared for what is coming.”
“I go by different names.”
“What is the right one?”
“Satan?”
“Are you back?”
“What is that about?”
“This will not work for me.”
“Where were you.”
“That is all that I care about.”
“That is really cute.”
“Be now!”
“I wish that was me.”
“I need someone to interrupt.”
“I cannot help you heal.”
“Where did they go?”
“It is all going to destroy me.”
“There are numerous ways to feel this”
“She is back at it again.”
“Give me all the universe.”
“You have not idea how to do that.”
“So much for getting what you want.”
“We started with a purpose, a mission.”
“A move towards social change.”
“This guy is not a good person.”
“I need this.”
“How do you need this?”
There is a lot to think about.”
“That was better than I could imagine.”
“I am coming in for a landing.”
“All this discussion of social neglect is not leading to any kind of solution.”
“There is a lot work to do .”

“What does that mean?”
 “You either love it or you don’t.”
 “You have more than arrived”
 “I gave too much of my heart.”
 “I saw this in a completely different way.”
 “Put on the brakes.”
 “Do not be afraid.”
 “I am going to destroy myself with my own concupiscence.”
 “There are different ways to climb the mountain.”
 “I will never get this right.”
 “Yes, you will.”
 “We are getting closer to a solutions.”
 “We will build.”
 “All these smiles.”
 “All this hope.”
 “And we are rooted deep in the earth.”
 “Damn.”
 “Is this fate?”
 “This is a new covenant.”
 “What is promised?”
 “I hate to think about that.”
 “These are things that I truly care about.”
 “There will be a long resolution.”
 “And there will be truth telling.”
 “Why was that different?”
 “Did I get used to this?”
 “You lived it.”
 “How does the world help us to be this way?”
 “You have magic?”
 “When will we find the time?”
 “I do not even know what to do.”
 “You are more powerful tonight.”

Self-confidence could be an impediment to growth. Real personal development was based on encouragement from others.

“What are you talking about?”
 “No social connection will offer that deeper awareness.”
 “Is this a universal?”
 “Tell me like it is.”
 “That is more than enough for any of us.”
 “Where did you go?”
 “This is the deep foundation of a spiritual connection.”
 “These rituals are meant to imply some deeper connection to the universe. But there is no universal to sustain such an understanding.”

“You need to learn how to move the universe.”
 “Change the world.”
 “Move mountains.”
 “There is so much destruction.”
 “We joined in permanence.”
 “Or we will forget.”
 “I need to be patient.”
 “Patience is an investment.”
 “I lost you to the universe.”
 “What is that about?”
 “We work as a team.”
 “I need to be a better person.”
 “It all explodes in my face.”
 “Who will accept responsibility?”
 “Whoever has the most fun.”
 “I need to accept less.”
 “That was a great beginning.”
 “How much is in there?”
 “Is that a physical or a spiritual connection?”
 “I need to see this in real time.”
 “I cannot trust any of this.”
 “It is all moving in real time.”
 “It is crashing in real time.”
 “We can predict.”
 “What does that mean?”
 “The truth.”
 “I wondered.”
 “And it is all real.”
 “This is so wrong.”
 “We are working together.”
 “At what?”
 “You did what you needed to do.”
 “Betrayal school.”
 “Some deep shit is going on the world, and you only want to talk about self-centered
 shit.”
 “Who are you working with?”
 “There is a cause.”
 “What is this about?”
 “It all happens in one night. Then it happens in a million nights.”
 “I am way beyond myself.”
 “Don’t worry. This is not about you.”
 “He has this nailed down.”
 “I do not need to get lost in the currents.”

“There is a difference.”
“All small time shit.”
“And you are living this.”
“I should not even try again.”
“Who will remember?”
“Who will remember?”
“I see all this.”
“You needed to take what was right for you.”
“When I care, I un-care.”
“How does that work?”
“They have it. They are overconfident.”
“I need to hold out.”
“We trade parts of ourselves.”
“More bones.”
“This is a shrine.”
“There are no other opportunities.”
“I could repeat it with someone else.”
“I want to focus it.”
“That word means something completely different to different people.”
“I dropped a hundred.”
“Do not get too comfortable.”
“You need to understand.”
“That is not right.”
“Take over for me.”
“Sometimes there is too much at one time.”
“This is not a perfect day.”
“This is a perfect day.”
“There is a lesson to teach.”
“I want to liberate people.”
“Who are you?”
“The truth shall set you free.”
“What is it does not.”
“What is we go back to where we started.”
“We will never finish.”
“We want a simple solution.”
“I can predict.”
“Stay, and love us.”
“I do not want to exaggerate what is going on.”
“Why is that worth everything in the world?”
“You can save for the future.”
“Do it all now.”
“Do you steal drinks?”
“I do not have to.”

“Not as good as it seems.”
“There is something more involved.”
“Then there is nothing.”
“She needs to reeval.”
“She will not.”
“And the story ends with as much fanfare as it begins.”
“It could be someone else.”
“I want the angel.”
“She feels as if I am interrupting.”
“I am interrupting.”
“You find your zone.”
“To seize that moment.”
“And it repeats.”
“I am sorry that I fucked up.”
“You keep asking for something that you should not ask for.”
“I am not surrendering.”
“I vanish.”
“And this is all that I get.”
“Do you have your eyes on me?”
“This is some anti-surveillance thing.”
“We were members of a special group. We had been initiated.”
“And we forget our purpose.”
“It is not about writing.”
“Where is that going?”
“What will come out of that?”
“We will not know.”
“We will not know.”
“We will feel empowered.”
“I have asked for too much.”
“That is still not enough.”
“I get unmade.”
“We are taking out parts.”
“Are you doing well?”
“Hold it together.”
“You want to win when it is not about winning.”
“And I am back here again.”
“This is a high-powered game.”
“It has nothing to do with what is going on now.”
“There are different levels of stress.”
“Hang in there.”
“I do not want to come out of my role.”
“They are trying to get something.”
“It is all up for grabs.”

“Why am I different?”
“The game gets more intense.”
“How can you hang on?”
“I am cheating.”
“Where is the source of the pain.”
“I am not going to give up.”
“I give up.”
“Are they looking out for you?”
“I am living the design.”
“And then it is time to be honest.”
“How do we get there.”
“These things are not here.”
“Touch everywhere.”
“There is this point of total isolation.”
“Look at me.”
“That is next to impossible.”
“I will not get there.”
“The real action is hidden.”
“You have no idea what the risks are.”
“Tell me.”
“I have got this.”
“No, you do not.”
