

**HIGH-POWERED NOTES**

You are going to get taxed on this.”  
 “These are tax free notes. We bring them out when we need them.”  
 “What more are you looking for?”  
 “The world is waiting for me.”  
 “And you believe that.  
 You could hand me one of those notes.”  
 “What is the value?”  
 “Where did this start?  
 “My mother gave me direction.”  
 “Money is not real.”  
 “Tell that to the gasoline clerk.”  
 “They are coming after your assets.”  
 “You are all under water.”  
 “They offered my mother double for my house.”  
 “The common man doesn’t have no gold.”  
 “They are afraid that the show will blow up in their faces.”  
 “Face it.”  
 “Back to the mountains.”  
 “Back to the mines.”  
 “We need to work the collective.”  
 “Is he still listening?”  
 “Why do I need to wait?”  
 “For a good resolution.”  
 “THIS IS IN YOUR HAND.”  
 “WHAT CAN YOU DO TO GET HIGH POWER?”  
 “What can you do ot affect anything?”  
 “Take what you get, and do not expect things to change.”  
 “Why does this work for you?”  
 “Because nothing works for me.”  
 “Take a chance.”  
 “I am doing accounting.”  
 “Who else is working with you?”  
 “It is getting chilly.”  
 “Everything needs to be more precise.”  
 “Where did you get the shirt?”  
 “This is not going to be a story.”  
 “There is not much to work with.”  
 “What was that about?”  
 “This has gone to the next level.”  
 “They are trying to poison us.”  
 “Get casual.”

“Was it good?”  
“This is what I did.”  
“I took what I could get.”  
“And what is that?”  
“I have an overall plan.”  
“This is not all that I do.”  
“He kept working on this.”  
“I wait until the right moment.”  
“Then you just say it.”  
“Give me more.”  
“That was the incorrigible one.”  
“Should I think about it?”  
“Is there a downside.”  
“Pretend that will work.”  
“Who else is working with you?”  
“The natural selection.”  
“The nature is moving in a lovely direction.”  
“Do not leave!”  
“I am among the decay.”  
“What is the alternative?”  
“I was waiting to show you something.”  
“We can go to the bank.”  
“Come to my house.”  
“It is so easy.”  
“It is never enough.”  
“Why are you trying to humanize this shit?”  
“Should I bother.”  
“That must have been wonderful.”  
“What is really going on?”  
“I could share that with you.”  
“You can’t get out of this shit.”  
“What would it take?”  
“We need to map out the alternative routes.”  
“He will pick the cadaver to the bone.”  
“We need to consult.”  
“I really messed up again.”  
“This is a conversation that is not a conversation.”  
“This is rich shit.”  
“This is not shit at all.”  
“But we come to the same thing.”  
“BOOM!”  
“I would explore.”  
“It takes some real estate.”

“That is beyond the level of the cadaver.”

“These guys.”

“Like pirana.”

“Damn.”

“I want there to be something else.”

“I have lost the feel.”

“She can get it back.”

“We need new words.”

“They all seem to know.”

“Can they all share?”

“This needs to be more magical.”

“I could do that.”

“That is a different way of seeing things.”

“There are other thing to combine.”

“Take another bite.”

“Who gets the rest?”

“It all gets thrown away.”

“That is wonderful.”

“We have gone through all the variations.”

“This is more than it is.”

“He is among us.”

“I think that it is time to go.”

“It is simply too late.”

“You have to take a look at what you are dealing with and say that this is not going anywhere. You never have that moment. You get all frustrated. You pretend. This is what you like. This is what you have always liked.”

“I can explain it in other ways.”

“That does not work.”

“It is not supposed to work.”

“That is a convenient way to explain that you cannot do a thing.”

“There is a genius.”

“Anne understood none of this until she lost her head.”

“No one ever does.”

“I was here before.”

“That does not count.”

“It is being pulled from our grasp.”

“This dos not amount to much of anything.”

“I am in the wrong place.”

“Not really.”

“Only once in a while.”

“This is a different movie.”

“What is that really about?”

“I took something that I did not want.”

“Is this organic?”

“Why is it different for you?”

“I am teaching you.”

“These are different ways to do the same thing.”

“You are only part way there.”

“I could be doing this somewhere else.”

“I want to know.”

“You feel apprehensive about your body. You feel that this is tied to something otherworldly. This is not representative of past trauma. You are in touch with some other kind of existence. It is the bleed from this other universe. And it is all obvious.”

“It will only get better.”

“It only takes one moment.”

“Do it now.”

“Do it for love.”

“How much will I need?”

“Make it cash.”

“This is just will.”

“What do I need to give?”

“What is going on back there?”

”That is wonderful.”

“I love him, but I do not.”

“What is this about?”

“We keep on with the same thing.”

“It is not like you think it is.”

“Why is that going to work?”

“I have no idea why.”

“I am waiting for something that should take one day.”

“I get it done, then it goes away.”

“There is a match.”

“There is a match.”

“I need to be somewhere.”

“You have this smart ass face.”

“Are you insulting me?”

“You tell me.”

“Then you tell me that you love me.”

“I cannot make this work.”

“There is a sequence.”

“Get the cash.”

“This is not a cash thing.”

“Do not pretend that you are getting this.”

“What do you really think?”

“Why do people like.”

“This is supposed to mean everything for your life. That means that life is happening for

the now. That is the summit of the now.”

“Some people love that.”

“That is all.”

“I am saving for something else.

“And that is supposed to make a difference.”

“We could see it differently.”

“When will this end?”

“I have a great job.”

“Can we work together?”

“We are together.”

“Are you working now?”

“Is that working?”

“The camera saw that.”

“Where is the resolution?”

“I never have enough resolution.”

“We need to get back.”

“I am a fish out of water.”

“Get back to the water.”

“This should help if there is a crash. You have money. It should last. But this is there just in case. You can use it to pay off your creditors. It should enhance your productivity. You really have nothing else to ask for. This is all due right now. This is due this second. I will take care of all of this. This will cover the accounts. You can print more notes. You can make more promises. Are you ripe? Are you ready for what is coming? This is how the money works. This is almost like magic. For you, it is. It gives you that extra power. It gets you going. If you have nothing else in your life, this is all that you will need. You will get all the gifts that you need. You have been trying other things. Others have been watching. Others have been loving.”

“Do you love what you have?”

“This is going to take a lot more than you have. Don’t you know that I have everything that you need. I only go along. I find comfort. I am not asking for promises. I am looking for promises. That is all that I need. I need you to stare me in the face and give me all that you have ever promised. Whatever else there is, is coming. I do not want to put pressure on the process.”

“Let me explain how it works. There is abundance in the fields, and we need to bring it to life. If we get it going, you will be getting a lower percentage for all your work. This is how it is meant to function. Work harder, and you can make it happen.”

“There is something else going on, and I am not part of it. You are not part of it. What else is happening? There are these valuations for work done. And I can’t do anything more. I will follow you out. You need to get out of here. Your promises do not amount to much. This is better than a promise. You are not making it yourself. When all is said and done, you will have nothing else on hand. Do you understand how that is even possible?”

“I lose any kind of clear orientation. I have assets, and they are not moving. This is where things get really difficult. You keep borrowing off the future. This is a wrestling match, Who can see the future. And you believe that you have that ability. Get more of this green. This grey. This brown. This stuff lasts. Look at the seal. They are issuing bonds. They are digging

up bones. The bones that they dig up could be your own. You were satisfied. We will find that satisfaction together. Everyone is getting much angrier than they should.”

“I am trying to explain how this oney works. I am trying to explain how you work. Do you have anything else. None of your real estate will cut it. It has fallen to its real value. Why do you keep thinking that people will trust you. Why are you running out on yourself?”

“Touch this. What does this feel like? This feels like your aspirations. This feels like your inspiration. I am getting closer to where I want to go. I have been working on this a long time.”

“I dropped you. I promised you. But I could not come through.”

“Are you crazy? That is not enough. I am not trying to hide. I am not trying to hide from you. I am not trying to hide from anyone. This is all coming. This is all coming for you. I am getting closer. But that is not close enough for much of anything.”

“This money will help to prevent you from feeling lonely.”

“She is gone.”

“Did she think that you were going to get paid?”

“I got paid.”

“There is more.”

“This is not a good combination for me.”

“What could have been worse?”

“I do not want to ask.”

“I was sure that we were much further ahead. And we were going to come to a resolution. You were interrupted. And you did not complete the thought. I understand what is involved. I have been thinking about this a great deal. What are you thinking about? None of this affected me. You let me visit. I saw a little bit. I wanted to stay. But there is not staying. There is no staying power.”

“The notes have all the power.”

“They do not exist on their own.”

“What is that about?”

“What are the other influences.”

“Whatever I am looking for is not there.”

“You are only here temporarily.”

“It all shuts down.”

“Then you find new ways to protect yourself.”

“What else is there?”

“I cannot explain to you.”

“You have it for what it is.”

“You tried to expand the system.”

“And it developed cracks.”

“What could you do?”

“Get the engine fixed.”

“Work harder.”

“It is not possible to fix any of that.”

“Do you want to come to a party?”

“What is this about?”

“This is all intimidating.”

“What else could you be doing?”

“I invested in the night. I invested in the now. I invested in everything that was to come.”

“Has he quit pretending?”

“He wants to put a little speed on it.”

“The governors are meeting.”

“What have they discovered?”

“It will all make sense on another night.”

“What night is that?”

“This is the pleasure zone.”

“Do you recognize what is happening with the exchange of notes? You are going to have to work more for less. That is their definition of hard work. And you are willing to go along.”

“Did you even get this started?”

“I need to examine the body.”

“I am living.”

“When will anyone agree with you.”

“Why do you laugh at your own jokes?”

“That is the currency market.”

“I really don’t see why you are laughing at any of these jokes.”

“You give them what they want, and you do not try to see beyond the obvious.”

“What do you expect to happen?”

“All hands on deck.”

“This is too easy.”

“It is not supposed to be.”

“It can be.”

“Do you have it?”

“What am I waiting for?”

“Have you had your full?”

“Where does this really matter.”

“We are all bringing the same thing.”

“This is how time works itself out. You are trying to influence.”

“What is wrong with the revenues?”

“I just wrote all the revenues in.”

“That is all that I expect to get.”

“I need your intervention.”

“I need more than hope.”

“There is this place where everything is perfect for you.”

“He is never going to get there.”

“You are doing a few bucks at a time.”

“I will work for whatever I can get.”

“There is a serious problem with cash flow.”

“This will put everything in place. Issue more notes, and it will get it all working.”

“You are not even in this show.”

“What are you afraid of?”

“My car.”

“That demand will cease.”

“What about the ongoing production?”

“That is not giving you anything.”

“I do not want to ask.”

“I did enough asking.”

“Do you need to be prodded?”

“This is supposed to be some kind of end.”

“You have the thing that you want.”

“Is it gold?”

“You are worse than you know.”

“It is all terrible.”

“I made a choice. But I do not want this choice close to me.”

“And that is all that is takes.”

“What is the problem here?”

“I am going to explain it in simple terms. I needed to give you time. I needed to let you get things right. It is all right. What do you want to add? Your household is not going to give a model for the economy. You are not going to be able to account for your own doubts. Why does this work for you?”

“I do not understand.”

“Who pays on this?”

“I needed to be more active before I took a stand.”

“I pretended that this could be me. This could be me. This could make a difference. This will make a difference.”

“You have been redecorating the living room. None of this makes any difference.”

“We can maximize.”

“No one can solve this problem.”

“Is there even a problem?”

“You are the problem.”

“Why do you think I am good at this?”

“Do you get this?”

“What is the product of these efforts?”

“I have made more garbage.”

“This is all about the packaging.”

“The river is being packaged.”

“This is not a river.”

“It will be wasted there.”

“This will destroy us.”

“This history will not work for either of us.”

“There is a genius to this.”

“If there was a genius to something else, it would be something else.”

“There is something else.”  
 “Time passes.”  
 “What is going on right now.”  
 “You could have handled this better.”  
 “I want to join in.”  
 “There is still a lot in that account.”  
 “My account is frozen.”  
 “Get this taken care of.”  
 “You realize that these were the only things that mattered.”  
 “That is why I will continue to have something.”  
 “And you borrowed how much money.”  
 “There is a secret.”  
 “What do we need to share?”  
 “I can already tell.”  
 “Let it go.”  
 “There will be another way.”  
 “I cannot get started any easier than this.”  
 “Just talk to me.”  
 “What are you reading?”  
 “How does the body give us this story?”  
 “What has been taken from me?”  
 “That is all that ever matters.”  
 “I am buying aspiration.”

Leo starts to talk about conspiracies. How these notes, that have never materialized, will cease to materialize.

“Why do you think that talking about this will make something come about?”  
 “I am watching the acrobats.”  
 “This one time means something.”  
 “How did he get there?”  
 “Prison taught him something.”  
 “They discovered more enemies.”  
 “I would only require one word to get out of here.”  
 “That one word is worth more than the notes.”  
 “Where does any of that go?”  
 “How clean are you?”  
 “I am clean enough to get what I am looking for.”  
 “This is not worth it.”  
 “None of this is going to do it.”  
 “It no longer fits me in that way.”  
 “Take it slowly.”  
 “Hope for something more.”  
 “And something more does not happen.”  
 “You checked in.”

“We are next phase shit.”  
“That only happens in one place.”  
“Put all the parts together.”  
“He cannot be helped.”  
“You have a chance.”  
“Do you think that I could get anything done if I took the same attitude that you did?”  
“I could look at it in a different way.”  
“Issue more notes.”  
“That will cause instability.”  
“You get this if you give up your cakes.”  
“No desserts.”  
“I have found a dessert cake in a can. It is one dollar, and I add Readi-Whip.”  
“These people have big aims.”  
“Who else touched this?”  
“At this point, I do not care.”  
“I don’t think that we would ever be friends.”  
“I really messed this one up.”  
“That is not going to help me.”  
“I cannot leave the doctor’s office.”  
“You need to be prepared.”  
“There are no miracles.”  
“There are miracles, but they are not available to you.”  
“Is that real?”  
“What do I get back?”  
“We are reviewing revenues.”  
“You are going to do more work.”  
“I added hours.”  
“I am dying in this heat.”  
“What else is there?”  
“Will there be another level?”  
“Do you want to get out of here?”  
“I did not drive.”  
“I can take you to the village.”  
“I am way deep in this. I wish that I could bring you along.”  
“Come along.”  
“The money travels.”  
“We have shops.”  
“And abandoned buildings.”  
“A super rat.”  
“I do not like to think in that way.”  
“Happy that you are that way.”  
“I do not have much to say.”  
“I have a lot to say. It might bother you because you prefer to live in the cocoon.”

“Those who are deep in the cocoon prefer to think that they are immune.”  
“That is not my doing.”  
“Who put that there?”  
“That is in my way.”  
“The bear put it there.”  
“I can clean it for you.”  
“This money is clean.”  
“What is the problem?”  
“The wage rate is not right.”  
“We cannot adjust down.”  
“There will be a devaluation.”  
“We will only hold it if we are getting something else back.”  
“Did you do that?”  
“That is me.”  
“That is me.”  
“That is me.”  
“That does not hurt.”  
“That hurts all the time.”  
“I do not understand.”  
“That is the only thing that is supposed to matter.”  
“Love.”  
“Free movement of funds.”  
“It never works exactly like that.”  
“I am not under the gun.”  
“There is no gun.”  
“There is no guy.”
