

THE SHIPWRECK

How could I develop from the conditions for my knowing to the actual structure of the world?

“Is this the raft question?”

I was expected to walk the plank.

“Why am I being punished?”

“You are asking too much.”

“I already dealt with that confrontation.”

“I am the one who wants to get out of there first.”

“This is a political punishment.”

“It does not hurt like it seems to hurt you.”

“Do your best to keep your balance.”

“You can’t censor something if you don’t know what it is.”

“Are you taking a side?”

“The prisoner’s dilemma.”

“How does that work?”

“It is best to turn state’s”

“I want to keep all the shit.”

“What do you really care about?”

“Darling, what do you care about?”

“Will the raft float?”

“What happens after the raft sinks?”

“There will be no other chance.”

“You already ran out on me on a million times.”

“What are you listening to?”

“Some something that I cannot hear.”

“I do not want to see.”

“This is not a form of seeing.”

“There was a brilliance.”

“What does this add?”

“Ask this guy?”

“He is on a drip.”

“That will work out to his advantage.”

“You bleeding everywhere.”

“This is metaphoric.”

“Love comes in many packages.”

“I want to learn about them all.”

“Get off the raft.”

“You will be helped.”

“How does that work?”

“Sink or swim.”

“Don’t mind the sharks.”

“How does that work?”
“They are mostly pets.”
“No one can be trusted.”
“This is where I would like to start?”
“The shark test.”
“Can you swim with these sharks?”
“I am good.”
“That is not the question.”
“How did it get to this point?”
“What am I looking at?”
“A water race.”
“This was supposed to be philosophical.”
“We are talking about belief.”
“You will get an answer in the morning.”
“Am I going to need to help.”
“No one can ever be helped.”
“You need to write down the principles.”
“What are the basic principles?”
“Belief is more or less automatic.”
“It could be a strict breakdown of the evidence.”
“What did you forget?”
“I am learning to love.”
“Do you have it?”
“Do you want to have it?”
“I am dissecting my psyche.”
“A lot of good that does.”
“Is this a new code?”
“Why do you think that you are loved?”
“What are you looking for?”
“What are you trading for?”
“That could be the worst.”
“See me.”
“You are preventing me from seeing the horizon.”
“None of them know.”
“You cannot know your heart until you have lost it.”
“The chicken heart.”
“Is that something symbolic?”
“None of this is going to amount to much.”
“The flies.”
“What is that about?”
“You are lucky that someone picked up the trash.”
“We are descending.”
“Are you listening to her?”

“That is war, war, and more war.”
“What is the plus?”
“I hope that does not happen.”
“Then it really happens.”
“It all crashes.”
“What is the deal?”
“There is nothing more in my account.”
“Whose fault is that?”
“If I can do this quickly, I can quit.”
“Big smiles for the family.”
“None of you is part of this.”
“I lost my diamond ring.”
“You were no supposed to keep that.”
“This is sadder than I know.”
“I told myself something wrong.”
“So wrong.”
“This cannot be worked with.”
“I cannot understand this whatsoever.”
“I am so far from this.”
“How far?”
“I lost my opportunity to change.”
“When will I be fixed up?”
“What can you tell by looking at the stars?”
“I am trying to get back to shore.”
“There is something going on here.”
“A limited ability to express compassion.”
“I wanted to touch.”
“A limited ability to feel.”
“There is no possibility of contrition.”
“When did this happen?”
“I could not make it in.”
“You assumed that you had control.”
“What is there here?”
“Should I believe?”
“I cannot even look.”
“What are you hiding.”
“I like the bull shit.”
“There is basically no story here.”
“And you accept it.”
“She will never know.”
“All the secrets of the world will slip down to the bottom of the ocean.”
“We can do an expedition.”
“What do you remember about any of this?”

“I don’t think my memory is implicated in any way.”

Brice could pick all this up and do something about it.

“What would that involve?”

“I have enough project. I do not have time for another project.”

“What is written on the wall?”

“We will not tolerate this shit.”

“He has everything that he wants.”

“This house was owned by one of the original robber barons.”

“Did he really believe that he would get everything back for his investment?”

“I am going to send this to you.”

“Do not forget anyone on the list?”

“What is going on with you people?”

“You are basically talentless.”

“I gave you my soul.”

“I have nothing left.”

“You are a leading member of the hive.”

“What is this about?”

“We could get it back.”

“I had a plan.

“And you risked your heart.”

“I have already told you how the recruiting works. They look for vulnerable souls. They do not have the emotional wherewithal to question these operations. Their intelligence is very circumscribed. They succeed at the tests of intellect, but they lack the ability to carry forth their critique beyond what is immediate in their environment.”

“You need to stop this now.”

“Are you kidding?”

“I do it all the time.”

“You cannot get rid of the effects that easily.”

“He is not my son.”

“What skill sets do they have?”

“This is all transferable.”

“Can you work the machines?”

“What is in the documentation”“

”Do you know?”

“Here is my analyst.”

“These analysts are working for Lancer.”

“Tell the world that there is an event.”

“They had fucked with her. That made her a perfect candidate for the program.”

“Everyone loves you tonight. What did you do?”

“I showed up.”

“I showed my fear.”

“I stayed too long at the fair.”

“What did you see?”

“Taste treats.”

“You are going to have to pay for the meal.”

“My friend said that he was going to get it.”

“What does it mean to call me a friend?”

“We are going to take apart the body to find the friend part.”

“Can you help?”

“Where is this headed?”

“I failed, and I succeeded.”

“We took him through a debriefing. It was some really crazy shit.”

“How did it work?”

“It was not supposed to work.”

“The manifesto explained things in detail.”

“That is going to shake me up.”

“I need a favor.”

“Fix the engine.”

“Fix yourself.”

“Are you ready to move on?”

“What does moving mean?”

“This is an occupational hazard.”

“What is the occupation?”

“I need to have perfect understanding of this moment.”

“Everything can be forgiven.”

“Is there collaboration?”

“They have gotten in my head.”

“Chill is not going to work. You are going to need to provide a thorough analysis.”

“They are going along with what we talked about.”

“Who is working with you?”

“Do we leave now?”

“What is the fuel charge?”

“I am not here to save everyone.”

“What would saving involve?”

“I am not going to go down.”

“We have our own machines.”

“You are the owner.”

“What was left out?”

“If I told you what was really going on, they would pick me up.”

“What is the director’s name?”

“They changed directors.”

“What does that mean?”

“We are looking at different influences.”

“This is crisp.”

“What have you been doing since then?”

“I wish that there were other variations.”

“Sometime, you just have to watch. Then you wait for your moment.”

“We feel it in different ways.”

“We could work together for some kind of resolution.”

“This is not a collective.”

“Did you throw a punch?”

“This is not going to work out.”

“What is the directorate saying.”

“This is something that I care about.”

“You do not understand whatsoever.”

“I cannot play around.”

“I cannot play around.”

“He has a great deal to say.”

“About the harmonic universe.”

“What is the vibration?”

“It does not work that way.”

“Why should I believe that any of them have a grasp?”

“You need to understand what Lancer is telling her people.”

“Is she the director?”

“She claims that she is no longer part of the organization.”

“Hold me.”

“This is some kind of code.”

“Lancer is so deep in it.”

“What is going on all around you.”

“This is the dinner rush.”

“All these new recruits are hanging around. They want direction. Every want wants her unique project. Something that will help her to distinguish herself.”

“Lancer has convinced all of them that they are working with a foundation of operational awareness.”

“None of this is working like this.”

“She can believe what she wants to believe.”

“They are empowering each of us.”

“I read the intelligence briefings, and I make up my own mind about what is really happening.”

“This could be that moment.”

“Who is going to open all the doors?”

“Crash down.”

“I do not want to stop.”

“I am getting very bored.”

“You have no understanding.”

“I had some great moments.”

“You have no idea.”

“She doesn’t show any basic compassion. Why has she been made this way?”

“She turns off her shit when she shows up her. But they have been threatening her

family. It is so clear what that is all about.”

“Can you identify this guy?”

“I was told that I was unique.”

“You were.”

“You have a unique power.”

“That is all too automatic.”

“Did they share it with you?”

“None of that really matters.”

“He has all the equations.”

“They are going to try to kidnap him.”

“What does this have to do with the archeonic design?”

“She say that it is in her soul.”

“This is some kind of interrogation technique.”

“Are we coming back?”

“We have been at it all along.”

“She is looking of new candidates.”

“She still seems like a fesh face.”

“She probably is the director.”

“Are you that afraid?”

“That is part of the recruitment process.”

“They make us believe that we are more thanwe are.”

“And what is actually going on?”

“You accustom yourself to this method. You develop limited independence from the organization. That is what holds it together.”

“Is there an alternative?”

“What are you working with?”

“I want to know that.”

“Did you serve time?”

“I am still serving time.”

“No one wants to hear it like that.”

“What do you expect?”

“The world all comes to me.”

“If it does not reach me, nothing happens.”

“She is not a nice person.”

“Are any of thes people nice.”

“What are you thinking about?”

“Could they really do recruitment here.”

“What do you have in there?”

“It is going to take a long time.”

“We are in the next stage of the organization.”

“You will need to pay taxes on your gains.”

“There is a lot shit going on.”

“Maximize it all.”

“Is there enough in the heart?”
 “I think that they are getting these people to fuck up.”
 “What does that mean?”
 “Do you know what is on the inside?”
 “I have this.”
 “I own you.”
 “They send you away.”
 “There is a cause.”
 “We cannot explain this to you.”
 “You are on the sidelines.”
 “What are you writing?”
 “A manual for the intelligence services.”
 “What is in there?”
 “This can help you change.”
 “They have been thinking about this stuff for a long time. You have no idea what is really going on there. That is why no one can accept any sort of accountability.”
 “I take it loose.”
 “What would it mean to be an expert at this?”
 “We are asking that question.”
 “We want to make sure that there are no duplicates here.”
 “Why are you in my way?”
 “I need to leave.”
 “You need to discover people that you can work with.”
 “This is getting very strange.”
 “There are assassins in our midst.”
 “That is what they say.”
 “Who is dangerous?”
 “Who has this down?”
 “He has nothing but pretty pennies.”
 “Why is this talk continuing?”
 “Look what is happening in the world. She seems unable to achieve any sort of consciousness. She knows a lot. She should have a more assertive personality.”
 “What is this really about?”
 “It does not affect me.”
 “Lancer seemed a victim of this kind of thinking.”
 “You seem more chill.”
 “What is really going on?”
 “The ski is running down hill.”
 “My life is going that way.”
 “Did you ever grasp it?”
 “You should be able to hear it.”
 “The market is not going to work favorably.”
 “What is happening next week?”

“I am going to take this all for myself.”
“What is the form of acceptance?”
“Will you drink cat piss?”
“Where did that come from?”
“You can come help us.”
“That will only be the beginning.”
“All this is exaggeration.”
“Lancer is looking at the real numbers.”
“This stuff is not just made up. It really happens.”
“Happens how?”
“I failed, and I succeeded.”
“I feel the same way that you do.”
“There was nothing going on. Then everything happened.”
“What would that be?”
“Tell me.”
“They are trying to control the border.”
“You know what that really means.”
“That is an antidote to tear gas.”
“We have all the controlled.”
“I am going to need some serious help.”
“No one is helping.”
“No one is.”
“I made ti past the hurdle.”
“If can complete this, that will be great.”
“You do not grasp the significance.”
“I have got this doen.”
“All done.”
“Where were you hiding?”
“These people are good at what they do.”
“They tell each other that.”
“How does that work for him every time.”
“You are not being nice to me.”
“I cannot sit still.”
“I only want to sleep.”
“And you go back to work.”
“You go back to life.”
“Do you want me to care.”
“You like it for what it is.”
“You will never understand.”
“There is someone who will love you.”
“The surveillance against the general public continued.”
“Thank you for saving me.”
“Thank you for saving me money.”

“I cannot explain it.”
“What is that really about?”
“What is really there?”
“Information that can be used politically, Things that can be used against our enemies.”
“YOU HAVE MADE ME AN ENEMY.”
“You have learned that now.”
“That is all that I want.”
“The bones.”
“The relic.”
“The altar.”
“You bombed that shit to hell.”
“It did not happen in our vicinity.”
“We are safe.”
“What movie is this?”
“The one with the killer with anxiety issues.”
“Is that admissible in the court?”
“Why are their intelligence estimates always so inaccurate.”
“Explain that to me.”
“What should I be looking at?”
“I am right every cycle.”
“Does that suddenly make you the director?”
“These estimates mean what they do.”
“The momentum is moving in another direction.”
“I cannot fix any of that.”
“I cry for you.”
“I need to get out here.”
“Oh, Susannah.”
“What do you want to tell her?”
“Did they give you a free pass?”
“I am carrying on from yesterday.”
“Yesterday did not go well..”
“That still seems to be an imposition.”
“I should not have promised.”
“Apologies are good.”
“What if you are not going to do anything to change?”
“I am not looking at it in a complex way. I just want some simply acknowledgment.”
“You have what you need.”
“Are you happy?”
“I am tired.”
“It is eating me up from the inside.”
“It has no effect.”
“Just show.”
“Maybe, you thought that I was promising something.”

“I need to be careful.”
“It is not going to work anymore.”
“None of it will.”
“You will need success.”
“We are replacing a CV valve.”
“All this weird stuff about airflow.”
“There is a simpler way to do this.”
“I see things.”
“No, you do not.”
“There is no breaking from the pack.”
“She works on controlling her subordinates. She commands authority.”
“He is very self-centered.”
“He is going to need a lot of self.”
“That is an interference.”
“He is throwing around his weight.”
“She is not going to recruit him.”
“How do you know this?”
“The fun is beginning.”
“I need to sleep.”
“Can you sleep?”
“My conscience is clean.”
