

SET

“Dolores, take a bow.”

“AI believe that I have enough talent in my bones to make this into a career.”

“Are you going to sell your music?”

“I think that society should reserve money for someone like me. I am on an exploration of the self. I am on a life-long journey to discover who I really am. And my knowledge can lead to a better life for humanity. I am not just making it up as I go along. I am in the process of making change.”

“What is that about?”

“I have met other people, who are teaching me how to enjoy their lives. They like to have fun. They don’t have a care in the world. I want to discover this method. And I can apply it to myself. I can learn other skills to enhance this facet of my character. This can enable me to enhance my nature. I am in the process of development.

“Do you need artificial means to facilitate your growth?”

“I am in the middle of something important. I do not want to lose my place.”

“Why are we like this?”

“How can we earn money until we enter that final phase?”

“There are these overwhelming blessings.”

“Where do we start?”

“What do you start with?”

“What gives you motivation?”

“This could be my inspiration.”

“Who wants to know?”

“I am way beyond thinking about work. If I have some money, that helps. But people are looking our for me. And I get a kick out of their connection.”

“Why are you unique?”

“I have so much curiosity.”

”Are you ambitious?”

“Where is the rip in the curtain?”

“This is all so need to me. And I want to stay on the pulse.”

“I am all there.”

“This could be Dolores.”

“Who is talking?”

“You know that I have what I need.”

“And I no longer care.”

“I get upset.”

“People get in my way.”

“I do not have a program. I have not thought this out. But that does not diminish my belief that I am right.”

“What is the soundtrack?”

“I realize that I am caught in a way of thinking. If I act this way, I need to keep acting in this way.”

“I hate to think that I am stuck.”

“Some people have pushed it to the extreme. I am not sure if I can deal with anything more than that.”

“What is the profit margin?”

“Do not quit on us.”

“This is going to take a while.”

“What if I was right?”

“I need to make this clear. I am having fun. I have not worked this all out. But it is important to realize that I am the verge of a deep understanding. And this could be the basis for a deep realization. I’m just not that kind of person. I know that I am good at what I do. I stand out from the crowd. And that can be the basis of a greater awareness of my part. But I am what I am. I do not want to exaggerate what I have.”

“What do you have?”

“I am trying to figure that out. The past months have enabled me to open those doors, but I am not sure what I have that is unique. If I take the time, I am going to figure that out. I wish that I see it or just say it. I do not have that kind of power. That doesn’t make me hollow. I am not ignorant. It will only be time before I figure out what that is.”

“I see this an education for me. I never was really exposed to this kind of knowledge. I am seeing it all around me, and I am feeling it inside. It will only be time before it all makes sense. I have a real skill. And I am building on it. I can explain it with words. I just feel it in the body. And that is why I need to have more time to develop. I am so much on the verge. And all this people that I meet reassure me that I am on the right course. That is fantastic. I feel that I am part of something wonderful. And others can become just as involved. I do not want to make too much of this. I am not the only person to get this.”

“I realize that no one can speak for me. This is a special kind of experience.”

“I wish that you could describe it in more detail.”

“I am doing the best that I can.”

“There has be more that is possible.”

“It is way more than that.”

“ I like talking about things like this.”

“I admit that I am working from a certain fascination on my part. And I can build on this. And I can make it into something more.”

“That is going to be sufficient for you.”

“I want to understand more. If there was a book to read, that would make sense for me.”

“I do not want to be mean.”

“Do you think that we are all working together for the same end?”

“What would that mean? I live my live. But I do not think about my life. I think about things in my life. Does that even make sense for you?”

“How long is this going to last?”

“What are you protecting?”

“I am not moving from a theory of health. I know when things are not quite right.”

“Where are the words going?”

“I am learning.”

“This is so much better than it was.”
“Dolores, do you know? Do you care? Do you have the time to make it mean anything?”
“I want to know what are you thinking.”
“What do I need?”

“What can I do that no one else can do?”
“What can you do that no one else can do?”
“I can get to the core.”
“Why do I even care?”
“I am trying to get ahead.”
“We all are.”
“I am trying to lift myself up.”
“You cannot get better than this.”
“And where is that going to take you?”
“I have worked hard on this.”
“Why do you think that this is going to be any different?”
“I have touched you deeply.”
“This is something else.”
“I need to get this down.”
“Two bad places.”
“No one is going to be any better than this.”
“You are a role model.”
“I need to knock on the door.”
“Dolores, you have no idea what the hell is going on.”
“Did you get the money?”
“I kept thinking that this was important.”
“I am digging around a junkyard.”
“You haven’t been here that long.”
“Where are we going?”
“What can you add?”
“So much.”
“Less and less.”
“Dolores is making sense of the flattery thing.”
“Why is this effective for me?”
“You tell me.”
“The sliced-up body.”
“How does that work?”
“There is no intention.”
“None of this matters to anyone.”
“I could think about this for a long time.”
“That would not have an effect on me.”
“I am a nurse.”
“Why do you do this?”

“Where do you do this?”

“What else is going on?”

“That is a little hopeless.”

“Dolores has unique skills.”

“There has to be some place that this means something.”

“I would rather do none of this if it was going to make me feel so terrible about myself.”

“I gave a lot of myself to a time like this.”

“Give me a bonus.”

“When will that even mean anything for either of us?”

“We represent different ways of enhancing our images.”

“She is already done.”

“You need to finish this. You need to show that you are worth something.”

“I am even more convinced that nothing will come of this.”

“Nothing will come of this.”

Dolores asked people to look at her. It would only be a time before she had a better argument to support her realization.

“What would that mean?”

“Should I really care? Should I ever care?”

“This is the moment that I really detest Sebastian. He encouraged me to move here.”

“I am taking no responsibility for your life.”

“No one takes responsibility for anything in your life.”

“You take it from here.”

“I will take you from here.”

“I made this for and from you.”

“We do this in a special.”

“Are you kidding?”

“And who really cares. Do you think that you are going to get more people interested in your life? Your attitude is not that creative.”

“I do not worry about that.”

“Everything is so ambiguous.”

“Dolores, do you know?”

“I know better than you know.”

“Find me a place.”

“You can hang out with me.”

“I never want to be here.”

“I am here.”

“It exists in the moment.”

“No one cares anymore.”

“Why is that part of me?”

“And how does it make it easier to go to your job in the morning?”

“I do not do that kind of work.”

“That was a serious problem for me.”

“Dolores, do you have serious problems?”

“Does that matter to much of anyone?”
“How long can you keep talking about that?”
“I can’t make sense of any of this.”
“Why should it really matter?”
“I got to a different place.”
“And I should care about this.”
“Dolores is worried.”
“You never listened to me.”
“You are not allowed to quit yet.”
“When can I stop?”
“Look at me.”
“How much has your bank account increased?”
“I needed to move it to the off-shore accounts.”
“Is anyone listening?”
“This is all important.”
“I cannot listen.”
“This is more than I need to hear.”
“Dolores, are you taking notes. More people will find appeal in what you do. You need to improve your act.”
“Look at my smile. What else can I add to this?”
“I am thinking about this.”
“There is so much to think about.”
“Time stops.”
“Dolores, do you have a show at your house?”
“I have animals.”
“What is that guy about?”
“He thinks that he is making it all happen in the now.”
“I want to stop.”
“When will she arrive?”
“I am at the edge.”
“Wait until you got home.”
“You got pissed.”
“You had different goals.”
“I did it, and I did it, and I did it.”
“You are making fun of me.”
“Keep making fun of me.”
“Where is this going?”
“Who is your colleague?”
“We all have the same goal.”
“I want to forget my time at work.”
“And this is way worse than that.”
“And there are more people who are going to fall in love with this.”
“We could work on it together.”

“And it explodes in our face.”
 “With a bullet.”
 “With an arrow.”
 “He can make it all happen.”
 “This is a business.”
 “And he shows up.”
 “Where were we headed?”
 “None of that matters to any of us.”
 “We have a whole different way of talking.”
 “This must be paradise for you.”
 “I am melting.”
 “I was in the hot room.”
 “None of these room are going to do it for me.”
 “What is the temperature?”
 “Room temperature.”
 “More than that.”
 “Did you drop cash?”
 “This will never work for me.”
 “I saw this in a different way.”
 “That is where I should be.”
 “That is too early for me.”
 “These are two ways of doing to same thing.”
 “No risks.”
 “All risks.”
 “Give me a wash.”
 “What are you saying?”
 “I had clear goals.”
 “What happened?”
 “People started twisting what I was about. I did not have an explanation to take it any further.”
 “I can’t even think about this.”
 “This is a great story.”
 “Do you want to go shopping.”
 “I got this jacket for nothing.”
 “A song.”
 “Dolores, where did you get that jacket?”
 “Vintage.”
 “Of course.”
 “This is supposed to be worth so much more.”
 “I need the door to open one more time.”
 “The door is open.”
 “The blood has been cleaned.”
 “Why do you think that even matters?”

“We need to solve our problems.”

“Dolores, this is not about us. I want you to think about other things.”

“What are you doing right now?”

“I am watching my cats.”

“I am watching television.”

“I can only give so much of myself to this.”

Dolores needed a better explanation.

“I show up. Why is this any different than anything else that I could be doing?”

“We could bring the ideology.”

“Does that work for anyone?”

“You need some thing more to accompany what you are doing.”

“What would that be?”

“Someone would fill in the details.”

“You’re not that good a dancer to start a dance sensation. And you do not dress with a lot of flair. But your face is distinctive. And people look at you.”

“How can I process this?”

“I love how you do your hair.”

“You could develop this more extensively.”

“And this is all that makes the cut.”

“There are different levels of understanding.”

“I am just behind you.”

“That one year is perfect.”

“What do you eat?”

“That could be the basis of an important story.”

“What do you care about? What do you even care about?”

“Where did it all go?”

“I needed to cover for you.”

“It all comes back to you.”

“You never can deliver.”

“There are a lot of frustrated people.”

“I want to watch you run.”

“I need to go.”

“I got out of myself.”

“And what do you add.”

“I know what I am looking for.”

“I thought about different ways that I could add to my own story. I had not developed my identity in a clear way. I had an image. That still was not enough to be very captivating.”

“There is a lot of money being spent.”

“Where are we going?”

“I want one person to answer my questions.”

“You had it all down.”

“We need to figure out how to do this.”

“I do not need a story.”

“Who is your audience?”

“I want to make this worthwhile.”

“You have a double.”

“Not the same specifications.”

“What is the one thing that is going to do everything for me?”

“Where does this even matter?”

I wanted to describe how I made decisions. But my personality was not all that strong. I had no idea how I was able to hang on.

“I found a new jacket for you.”

“I am not wearing jackets now.”

“What do you have that will work for me?”

“Who knows?”

“Where should I be?”

“What is missing down there?”

“I am.”

“I will give you everything that I have.”

I had a restaurant job. I learned how to help out at home.

“You are going to tell me about your family.”

“I am going to tune out.”

“Set it, and forget it.”

“You have all this down.”

“I need to talk to you.”

I didn't want to tell her anything that would confuse her.

“We could continue at home.”

“This is not a sewing circle.”

“This is not a suing circle.”

“What did I do wrong?”

“Tighten up the stitching.”

“I need to make this more exciting.”

“He does.”

“Do you know that guy?”

“He has been talking you up all night.”

“I cannot carry the burdens of the world on my shoulder.”

“Can anyone? Is there anything remotely close to belief in your life?”

“I kissed you all.”

“No kissing.”

“They protected me.”

She had a lot more to give. She was not going to be able to distinguish herself at her job.

“I have a look. No one else is this fresh.”

“We could do it all at your place.”

“No one takes money here.”

“How do I get a drink?”

“Do a dance.”

“Are you kidding?”
“Who is the guy?”
“He runs interference on other guys.”
“I can tell that look.”
“A lot of noise.”
“Do you know where you are?”
“I am in the middle of things.”
“What is the disposition of forces?”
“What do you have in there?”
“It will be solved.”
“It is solved.”
“All good.”
“How does that work for you?”
“I need the money back.”
“The end is coming sooner than we know.”
“Will Rels be here in time?”
“She is not in the story.”
“This is your life.”
“We share this.”
“He is not a good person.”
“I need this to function. I could explain it to you.”
“She does not take a long time thinking about it.”
“Be honest. You get up in the morning, and there is nothing artistic that you want to do.”
“Why is that cool shit for you?”
“I avoid these guys.”
“Who do you get with?”
“The ambitiously aspiring.”
“I am glad that is worthwhile for you.”
“I want to know that matters.”
“No one appreciates this.”
“Is it my mistake?”
“A few people messed with me.”
“How can you push this?”
“Take it for what it is.”
“Take it.”
“Explain it for me.”
“What kind of body do I have?”
“Dolores, everthing is going to go your way.”
“Who are you working with?”
“You could perform in front of all of you.”
“I just want a body.”
“You are not the body that I want.”
“Why would any of that ever work for me?”

“I am very serious about this.”
“The force field stopped me.”
“He will complete the show.”
“This is when I really hate what I get.”
“Someone is not good with ventilating this place.”
“What kind of idea is that?”
“I will tell you what I need to say.”
“Somewhere to wait.”
“I know where it started.”
“This is where you are headed.”
“The world loves you.”
“Give me a few minutes.”
“You want to be relevant.”
“Maybe, I had some kind of disease when I was younger.”
“I am doing tax stuff.”
“I need to do this in the now.”
“How does that even make sense?”
“She is going to help.”
“It is great to see you here.”
“I will tell you what I want more than anything.”
“I missed the shot.”
“She is out of range.”
“She was doing this for all of us.”
“And we can go home.”
“Are you inviting me?”
“There is no connection.”
“You are almost there.”
“Next.”
“Next.”
“I just arrived.”
“They are waiting for me.”
“What is behind that?”
“You want it all.”
“This guy was draining me of all my energy.”
“I fell asleep in the middle of my meal.”
“She came in with a purpose.”
“I connected with people who understand me.”
“And I about to make my debut?”
“Where would that be?”
“I am very particular.”
“What is in that?”
“I do not want to try.”
“Try.”

“Do you hate me now?”
“I am looking for a head hunter.”
“I need a head.”
“Is he with us?”
“We are gone.”
“There were options.”
“This was supposed to be different.”
“I was sure that you would stay to finish your drink.”
“That is timing.”
“Good timing.”
“Everyone is out of here.”
“We will be back for more.”
“I need someone to explain.”
“I consume bread.”
“I found the source of the pain.”
“You need to make better notes.”
“I keep waiting for that moment.”
“The spiritual connection.”
“Dolores worked to reach that state of mind.”
“What does she lack?”“
”Concentration.”
“We are protecting your way of life.”
“By making the problem worse.”
